

Blank Bitcoin Cash Crypto Bill Instructions:

1. If you would like to send Bitcoin Cash to your Crypto Bill before giving it, scan the “PUBLIC KEY” QR code with a wallet application. Then, send the desired amount of BCH to the associated public key.
2. Give this gift of crypto just like you would give someone cash, and it’s ready to use.
3. When you would like to use your Bitcoin Cash, or conveniently check it’s price in an app, simply scratch off the private key QR code with a coin or other small, hard object. Make sure you keep the private key hidden from prying eyes - a bad actor with access to your private key has access to your funds.
4. Next, download the free app “CoinSpace Wallet” from the App Store.
5. Once CoinSpace has been downloaded, select the “Create new wallet” option. Next, click generate passphrase.
6. Write down the passphrase that it has generated, preferably on paper for maximum security, but you may also just copy and paste it into your notes. Once you have written it down, click on the “I have written down or otherwise securely stored my passphrase” button, and agree to the terms and conditions.
7. Now click “Set your PIN”, and choose a PIN that you will remember.
8. Do NOT click the “Remove ads” pop up that will greet you on the next screen.
9. Now you are on the home screen. Head over to the far right side where it says “Tokens”, and select “Bitcoin Cash”. It may prompt you for you PIN number again.
10. Once you are inside your Bitcoin Cash wallet, head over to the settings icon in the top left corner of your screen. Once in your settings, there is an option to “Transfer paper wallet/private key”. Click that.
11. A new dialogue box will appear. Click on the QR code symbol on the right side, and it should open your camera app.
12. Scan the left side of your BCH Crypto Bill, the “PRIVATE KEY”, with the CoinSpace app. Once scanned, select “Transfer”. Once the transfer has been completed, please keep your Crypto Bill in a secure location, preferably a safe. A bad actor with access to your private key has access to your funds.
13. Click “Send”, and now you are done! Note that a small transaction fee will be incurred. You have now transferred the Bitcoin Cash from the Crypto Bill onto your phone, where you can conveniently check its price.
14. Most important step. HOLD ONTO YOUR BITCOIN CASH.

Optional:

PIN:

Private Key:

Notes:
